

40th anniversary of the SFB
Wednesday, 15th November
Host: Coralie Bompard

13:30 Session opening by the President

13:45 Bruno Guigliarelli

Electron Paramagnetic Resonance and Biophysics: a long journey from electron transfer to protein dynamics

14:15 Marlène Martinho

Protein dynamics: EPR ... but not only

14:45 Paul Vigny

« Le printemps de la SFB et de l'EBSA au tournant du XXI^e siècle »

15:15 Claire Valotteau

Atomic Force Microscopy: current and future insights in biophysics

15:30 Jérémie Topin

Combining in silico with experimental approaches to decipher chemical senses

15:45 Discussions over a coffee break

16:45 Véronique Receveur Bréchet

« D'un prix à un engagement : l'importance de la SFB et des sociétés savantes dans une carrière »

17:15 Young Researcher Award

Dhenesh Puvanendran

Exploring transporter mechanisms involved in antibiotic resistance: Insights from Pseudomonas aeruginosa and Escherichia coli

17:30 SFB General Assembly

18:30 Session closing
